## Dispatcher Support Services

- Years at Hoag: 4
- Pursuing a bachelor's in communications
- Scholarship will help him accomplish his goal of obtaining a college degree
- Started his education at a community college and was determined to transfer to a four-year university. Now one year away from graduating from Cal State Fullerton
- Fascinated with how we interact in the technological age
- Hopes to transfer to corporate communications

Dear Kingston Technology,

I am writing to you with great appreciation and gratitude for selecting me as a recipient of the 2020 Kingston Technology–Hoag Classic Scholarship award.

This award means a great deal to me and will help me accomplish a goal that I set out to achieve six years ago—to complete my college degree. Not having the burden of a large student loan will allow me to focus on my future and make sure that it is financially stable.

My academic career has been met with hardship, challenge and, sometimes, failure. Knowing that the work I am putting into my education is being recognized brings me greater motivation going into the fall 2020 semester.

Despite the challenge of virtual learning, I am grateful to continue my college education with the support your organization has bestowed upon me.

After I complete my degree in communication studies, I hope that I can give back to Hoag in a way that benefits our organization and the Newport Beach and Irvine communities we service. Again, thank you so much for this opportunity.

Sincerely,  
Carlos Cordova III  
Support Service Dispatcher
