

Lauren Claytor

Clerical Coordinator/Telemetry Tech Advanced Brain & Spine Unit

- Years at Hoag: 4
- Pursuing a bachelor's in clinical science
- Acquired degree: Associates of Liberal Arts, Associates of Natural Science
- Scholarship will help her reach her goals
- Plans to use her degree to be a laboratory scientist
- Grew up in a single-parent, low economic household where the emphasis was to work hard and put food on the table
- Wants more than just a job—wants an education and career
- First in her family to attend college

Dear Kingston Technology,

I am honored to be one of the recipients of the Kingston Technology–Hoag Classic Scholarship. Thanks to your generous support, I am the first in my family to attend college.

Growing up in a single–parent household has not only offered financial challenges but has also helped me realize the value of a college education.

I have begun my undergraduate career as a transfer student at Cal State Dominguez Hills. My academic plan is to complete a major in clinical science, which I plan to use as a laboratory scientist at Hoag Hospital. CSUDH offers a wonderful program, and I consider myself fortunate to be able to attend.

Upon graduation, I will continue my journey with Hoag Hospital and my dream of working in health care. By awarding me the Kingston Technology–Hoag Classic Scholarship, I will be able to focus on my education and put all my energy into succeeding in my classes. Your generosity is allowing me to make my goals and dreams a reality. So once again, thank you for your generous donation and helping me get one step closer to my future success.

Best regards,
Lauren Claytor
