

Michael Davila

Surgical Tech Operating Room

- Years at Hoag: 3
- Pursuing a bachelor's in health care science
- Scholarship brings him one step closer to his career and life goals
- Goal is to be a physician assistant
- Hoag feels like home

Dear Kingston Technology,

I would like to thank Kingston Technology for choosing me as one of the Kingston Technology–Hoag Classic Scholarship recipients for 2020. I am honored to have received this generous and kind gift.

This scholarship gives me the opportunity to focus on school and work without having to worry about money, especially in these difficult and uncertain times.

This scholarship also brings me one step closer to my career and life goals. I am working on my bachelor's

degree and eventually hope to pursue a physician assistant degree. I have worked at Hoag for almost four years. I am incredibly grateful for all the opportunities I've been given through Hoag, and I am truly appreciative of this scholarship from Kingston Technology.

Warmest regards,
Michael Davila
