Pharmacy Lead Tech and Buyer

- Pursuing a bachelor's degree in healthcare administration
- Inspired by his team and manager at Hoag
- Aspires to be part of many future Hoag projects in leadership, administration and expansion

Dear Kingston Technology,

My most sincere gratitude for your generosity and investment in my future career here at Hoag. It has been one of my highlights this year to receive such an honor, and I truly appreciate being selected. I feel empowered, supported and encouraged to further my career in such a wonderful organization like Hoag.

This scholarship means the world to me because I have always been independent and have had to navigate through life on my own while looking after my little brother. I had to grow up fast since we did not have parents to provide for us, and I postponed my education for the longest time to survive by making ends meet. My brother is a successful staff sergeant in the Air Force now training recruits, attending to their mental health, helping them thrive and traveling the world, which prompted me to focus on my career and what I hope to do with it. Being employed at Hoag in the pharmacy department and working

my way up to the position I am in now only fuels my passion to succeed more and help others succeed.

My choice of pursuing my Bachelor of Science in Healthcare Administration has been inspired by my amazing leadership team here in the pharmacy department. I have terrific mentors to look up to that have inspired me to further learn about leadership and operations as well as how these impact others, helping me find my way and aspire to be one of Hoag's future leaders. This scholarship helps me get one step closer to my goal, and I want to be able to give back in the future to carry on the torch that inspires others to see the best in all careers and provide the ultimate patient care, especially here at Hoag.

Sincerely,
Christian Young
